PROFESSIONAL SUMMARY

AI-Product and UX/UI Designer with 2.7+ years of experience across Dubai and India, designing end-to-end digital products and the brand systems around them. Specialised in conversational and AI-driven UX - chatbot flow design, intent mapping, dialogue architecture, and AI-assisted workflows - grounded in core UX practice including user research and interviews, journey mapping, information architecture, wireframing, and prototyping. Proven delivery of responsive web apps, e-commerce flows, and scalable design systems in Figma. Equally strong in visual and marketing design, translating complex business messages into clear, well-structured communication across digital and print touchpoints. Working knowledge of front-end constraints for smooth design handoff.

SKILLS

AI & Conversational UX	Chatbot Flow Design, AI-Driven User Flows, Prompt Engineering.
UX/UI	User Research, User Interviews, Information Architecture, User Flows, Wireframing, Prototyping, Design Systems, Interaction Design, Usability Testing, Responsive Web Design.
Visual & Brand	Visual Design, Branding, Typography, Layout Design, Marketing & Campaign Design, Email Design, Motion Graphics, Video Editing.
Tools	Figma, FigJam, Adobe XD, Miro, Photoshop, Illustrator, After Effects, Premiere Pro, CapCut, Mailchimp, Procreate, Midjourney, Vibe Coding, and other AI tools, Notion, Figma Make, Claude, ChatGPT.
Front-End Basics	HTML, CSS (working knowledge of front-end constraints for design handoff).
Ways of Working	Agile / Scrum Collaboration, Stakeholder Management, Design Documentation, Google Analytics (basic).

WORK EXPERIENCE

Creative Designer	Jun 2026 – Present
Rida International Family	Dubai, UAE
- Design social media creatives and campaign assets aligned to brand guidelines, maintaining a consistent visual system across every customer touchpoint. - Build email marketing campaigns and newsletters with a focus on visual hierarchy, scannability, and engagement. - Produce brochures, flyers, and marketing collateral for both digital and print, adapting layouts to each format's constraints. - Edit promotional videos and motion graphics to support marketing campaigns. - Partner with marketing and business teams to translate complex information into clear, structured visual communication. - Manage multiple concurrent design projects against tight deadlines without compromising quality or brand consistency.	
Product Designer (UI/UX)	Sep 2025 – Apr 2026
Hadify	Dubai, UAE
- Led end-to-end UX design for a fitness and wellness web application – discovery, wireframing, prototyping, and design system creation in Figma. - Designed AI-driven personalisation flows powering tailored recommendations and health insights within the product. - Conducted UX research including user interviews and journey mapping to inform data-driven product decisions and improve usability. - Built scalable design systems and reusable component libraries, collaborating with product and engineering teams to ensure front-end feasibility. - Designed responsive desktop and mobile screens, and built interactive prototypes used for stakeholder review and user testing. - Created social media creatives and client onboarding presentation templates supporting marketing and brand consistency.	

Junior Designer (UI/UX)

Trexo Global

2023 – Apr 2025

Delhi, India

- Designed the UI/UX for the JUNE Tool, a legal workflow platform, transforming complex multi-step processes into clean, structured interfaces – improving user engagement by 30%.
- Mapped user flows and interaction patterns for AI-assisted legal document workflows, applying structured dialogue and decision-tree design principles.
- Designed a complete e-commerce website from research through final UI, covering product listing, product detail, checkout, and account management flows.
- Contributed wireframes and visual assets to the Trexo Global website, supporting a modern and consistent user experience.
- Collaborated with product and development teams on clean UI layouts that respected front-end constraints (HTML/CSS), and refined designs iteratively through user and team feedback.

Senior Paralegal

Clarivate

2019 – Dec 2021

Delhi, India

- Ensured accuracy and consistency in documentation through detailed quality checks and process optimisation.
- Trained and guided team members – collaboration and knowledge-sharing skills directly transferable to cross-functional design work.

KEY PROJECTS

Fitness & Wellness Dashboard – Hadify

2025 – 2026

Conversational UX & Responsive Web App

- Wellness platform for personalised health tracking and habit-building; designed end-to-end wireframes and prototypes for a responsive web app with AI-driven personalisation flows.
- Defined features including progress tracking, personalised recommendations, and health metric dashboards, simplifying data visualisation for non-technical users.

JUNE Tool & Website – Trexo Global

2023 – 2025

Legal Workflow UX & AI-Assisted Document Flows

- Redesigned complex legal workflows into intuitive, conversation-inspired UI patterns, reducing cognitive load and improving task completion rates.
- Delivered the Trexo Global website with a focus on modern, accessible, and consistent experience across web interfaces.

2024

E-Commerce Website

End-to-End UX/UI

- Worked with the senior product team on an end-to-end e-commerce experience, from research to final responsive UI for desktop and mobile.
- Designed listing, product detail, checkout, and account management flows to reduce drop-off across the purchase journey.
- Built a reusable component library for consistency and faster iteration, and aligned requirements with usability in collaboration with business stakeholders.

EDUCATION

Advanced Diploma in UX/UI Design & Graphic Design

2023 – 2024

Dice Academy, New Delhi

Masters in Microbiology

2014 – 2016

Hemvati Nandan Bahuguna Garhwal University, Dehradun
